FAMILY PHYSICIAN OPPORTUNITIES

There are many options for a family physician in Cornwall. Many of our family physicians are in a Family Health Organization (FHO) – some of these physicians have a solo practice and some are in a group practice. With a practice in Cornwall you can be as busy as you want. We have many families looking for a family physician. Some family physicians have paediatric patients where others prefer to keep to the 16 and over population.

We have a full-service hospital, although we are a smaller community, our hospital has all the benefits of a larger city. We are a 160-bed hospital with Diagnostic Services including MRI, CT scan and ultrasound. We have a 6 suite Operating room where we perform a wide range of procedures. We have specialists in Orthopaedics, Ophthalmology, Urology, General Surgery, OB/GYN, plastics and ENT. These surgeons also have an office in the community so referrals are easily made by the family physicians.

If you are looking for a community office but would like to keep up with the hospital, some family physicians provide hospitalist coverage for a week or weekend per month.
